PRINTING CONNECTIONS COMPANY PROFILE

**QUALITY
PRINTS
FRIENDLY
SERVICE :)**

ABOUT US

Printing Connections, has been providing excellent printing services to Australian clients with the strong backup from a huge printing company in China.

Covering a total area of 100,000 square metres, the factory in China has a building area of more than 20,000 square metres with five workshops of plate-making, rotary printing, colour printing, commercial colour rotary printing and binding. The factory has the following sophisticated equipment:

- *Primescan D8200 high precision scanner from Germany;*
- *AGFA25S photo typesetter;*
- *Sophisticated photo typesetting system made by Beijing University of China;*
- *Three sets of four-colour offset printers of Heidelberg and KBA brands;*
- *Seven sets of multi-colour offset rotary printers;*
- *DIANA high-speed gluing machine from Germany;*
- *Automatic UV roller coating machine from Switzerland;*
- *Muller Martini combined offset staple line;*
- *Seven sets of combined saddle stitching lines;*
- *Most sophisticated German KBA 215 commercial web-offset printers with maximum print speed of 50,000 print copies per hour.*

The annual printing capacity of the factory is 100 million volumes of magazines and booklets. The factory has been servicing customers as widespread as the USA, Japan, Europe, Hong Kong, Macao, Singapore and Australia.

Printing Connections is responsible for all aspect of the printing market in Australia. We offer prompt delivery, high quality, reasonable prices and friendly customer service. We also have an in-house digital printing facility in Sydney to provide instant printing services to our customers.

Perfection is our commitment and satisfaction from our customers is our pursuit. We endeavour to deliver high quality printing services to all Australian businesses and government organizations.
